443-515-8476 | oso@andrew.cmu.edu | [LinkedIn](#) | [Design Portfolio](#)

EDUCATION

Carnegie Mellon University | Cumulative GPA: 4.0 /4.0

M.S. Human-Computer Interaction

Pittsburgh, PA

August 2026

The University of Maryland, Baltimore County | Cumulative GPA: 3.82/4.0

Baltimore, MD

B.S. Information Systems | Magna Cum Laude

May 2025

PROFESSIONAL EXPERIENCE

Trane Technologies | Service Owner Intern

May 2025 - August 2025

Technical Sales Engineering

Towson, MD

- Collaborated with Sales Account Managers to gain hands-on exposure to the full-cycle technical sales
- Served as a primary customer point-of-contact, strengthening solution-based relationships and developing critical technical skills

Deloitte & Touche LLP | Risk & Financial Advisory Intern

June 2024 - August 2024

Information Technology & Specialized Assurance

McLean, VA

- Executed user access reviews across 40+ internal applications to identify and mitigate potential security risks
- Prepared and delivered comprehensive Excel reports detailing assessment results, which contributed to a reduction in unauthorized access incidents

J.P. Morgan Chase & Co. | AI/ML & Data Science Fellow

June 2023 - August 2023

Product Ownership

Columbus, OH

- Designed tailored business proposals for Minority Depository Institutions, outlining AI-driven automation strategies that increased efficiency
- Implemented Python-based AI models to automate routine banking tasks, significantly reducing manual effort and minimizing operational errors
- Analyzed large data sets to identify key patterns and generate insights for strategic decision-making, with projected improvements in customer satisfaction exceeding 30%

IBM-International Business Machines | Accelerate UX Design Participant, Design Track

June 2023 - August 2023

IBM Accelerate

Virtual

- Completed weekly design modules and demonstrated proficiency through a final assessment showcasing UX design capabilities
- Attained recognition for design excellence by earning an IBM design badge signifying mastery of design concepts and practices

PROJECTS/RESEARCH

Towards Accessible Mobility Support: User-Centered Design of a Passive, Multi-Functional, Low-Cost Knee Exoskeleton

Fall 2025 - Present

Student Researcher | Dr. Alexandra Ion, Interactive Structures Lab

- Transitioned from low-support, early-stage 3D-printed prototypes to leading the design of a fully laser-cut exoskeleton frame, integrating 3D-printed stabilizing components and iterating on mechanical function using Fusion 360 and laser cutting workflows.
- Developed advanced skills in Adobe Illustrator for precision laser-cutting layouts, Figma/Fusion 360 for 3D modeling and print-ready structures, and hands-on fabrication for building functional mechanical systems (load-triggered mechanisms and conformal wearable structures).

Physiological Synchrony, Stress, and Communication of Paramedic Trainees During Emergency Response Training

Fall 2023 - Spring 2025

Student Researcher | Dr. Andrea Kleinsmith, Affective Computing

- Observed simulation videos to document behavioral changes and interaction dynamics among participants
- Applied detailed observational techniques to capture nuanced shifts in verbal and non-verbal communication and teamwork
- Analyzed recorded data to identify patterns, trends, and variations in behavior across simulation sessions

LEADERSHIP EXPERIENCE

Residential Student Association, President (UMBC)

Fall 2024 - Spring 2025

National Society of Black Engineers, Public Relations Chair (UMBC)

Fall 2023 - Spring 2025

Center of Women in Technology, Affiliates Representative (UMBC)

Fall 2023 - Spring 2025

Center of Women in Technology, Peer Mentor (UMBC)

Fall 2022 - Spring 2025

PROFESSIONAL DEVELOPMENT

PepsiCo Kickstart Leadership Program | 8-week immersive boot camp | Focus: Leadership development

Summer 2023 Cohort

- Collaborated with cross-functional teams to solve real-world challenges, gaining direct experience in project management
- Received mentorship from PepsiCo leaders, leveraging insights to navigate the corporate landscape effectively

Citi Technology Early ID | Exclusive 5-week virtual program | Focus: ICG Tech Application Development

Spring 2023 Cohort

- Completed technical training, panels, and seminars to enhance application development knowledge
- Engaged in hands-on learning projects, applying Python to build application solutions

Google's CS Research Mentorship Program | 4-Month Mentorship Program | Focus: Computer Science Research

Fall 2023 Cohort

- Cultivated relationships with Google leaders while participating in bi-weekly mentorship sessions
- Attended panels and engaged in networking events to expand technical and professional knowledge

TECHNICAL SKILLS/EXPERIENCE

Programming: Java, Python, HTML, CSS, SQL, JavaScript, Excel, TypeScript

Design: Figma, Adobe XD, Adobe Illustrator, Adobe Photoshop, ProtoPie, Miro, Tableau, Fusion360, AutoCAD

Prototyping: Fabrication, Garment Construction, Laser Cutting, Woodworking, 3D Printing
